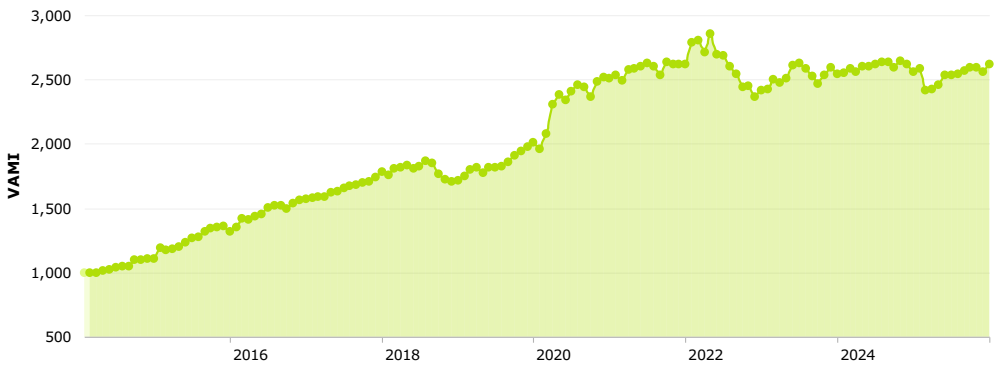
Regime-Adaptive Multi-Strat (PRAM)

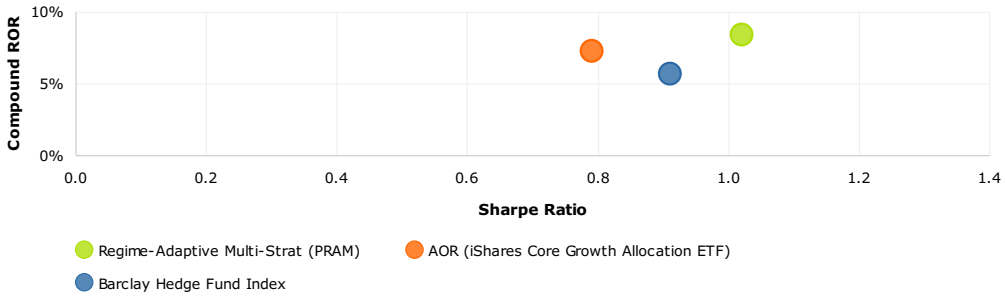
PROFITSCORE® CAPITAL MANAGEMENT, INC.

Report Date: January 2026

Growth of 1,000



Risk/Return



Index Description

The strength of ProfitScore's Regime-Adaptive Multi-Strat Program (PRAM) lies in its ability to measure changing market dynamics and systematically trade based on market states. Each highly liquid program uses unique sources of information to make trading decisions, reducing investment model correlation. The equity program places trades in S&P 500 Index secuties depending on the market's High Vol or Low Vol state. The program's US Treasury allocation systematically places trades in longer-dated US Treasury index securities based on Risk-On and Risk-Off market states. This program's most significant value generally occurs during periods of high volatility and market stress when many other strategies are faced with performance challenges.

Important information: Past performance of a ProfitScore index is not an indication of future results. You cannot invest directly in any ProfitScore index. Performance of any ProfitScore index does not represent actual fund or portfolio performance. A fund or portfolio may differ significantly from the securities included in an index. Index performance does not reflect any management fees, transaction costs or other expenses that would be incurred by a portfolio or fund, or brokerage commissions on transactions in fund shares. Such fees, expenses and commissions would reduce returns.
